

K-Love has provided my family with clean, uplifting, commercial-free Christian music for the past 5 years, which is when we first found the station. This station is one-of-a-kind in our community. Not only does it provide positive entertainment, it also counsels people experiencing difficulties in their lives, and gives those people somewhere to turn for information and even help. I believe our community deserves an entertaining station like K-love that is an alternative to the foul-mouthed, trashy, disgusting rock stations that provide no moral base or support for families living here in Cincinnati. Please don't force them off the air.
